

EXTRUDED SOLUTIONS

Avon Impact Management provides a quality range of robust extruded solutions for the following applications:

**CAR PARKS / TRAFFIC MANAGEMENT / WAREHOUSING
COMMERCIAL PROPERTY / FACILITIES MANAGEMENT**

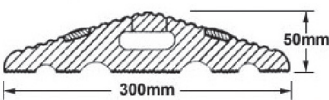

In addition to our standard range, we will also develop bespoke solutions to meet your specific requirements:

Benefits

- Reduce maintenance
- Protect buildings & vehicles from damage
- Shield customers & staff from injuring themselves
- High visibility markings

Material Selection

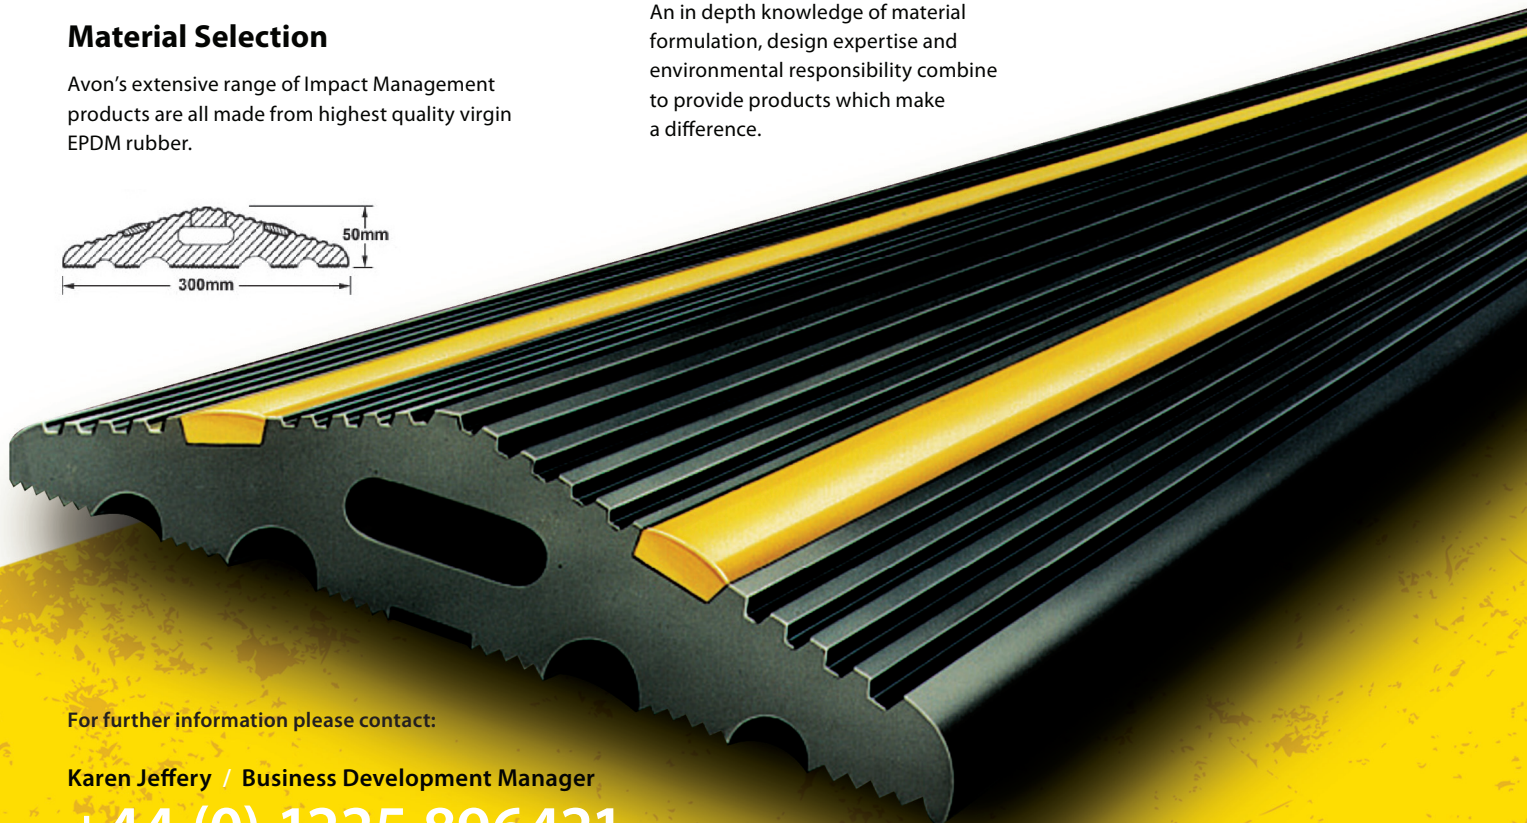

Avon's extensive range of Impact Management products are all made from highest quality virgin EPDM rubber.

Tried and Trusted

For over a century, Avon has worked with organisations and governments all over the world to develop tailored products that provide solutions to their needs.

An in depth knowledge of material formulation, design expertise and environmental responsibility combine to provide products which make a difference.
